Start at:

5. A *code* will appear in a box. Copy the whole *code*. (Ctrl V or Right Click / Copy) Leave the YouTube window open in its tab in case there is an error.

## Embed a YouTube video in your Weebly

6. I like to put my elements in columns. Grab the *Multiple Columns* icon and drag it to your page.

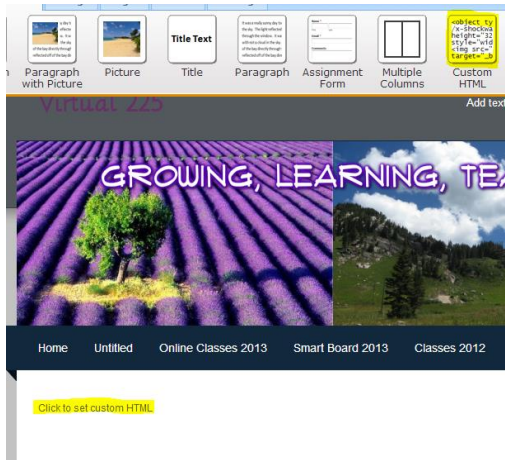

7. When you grab the *Multiple Column* icon you will get the option of selecting the number of columns you desire.

Those columns are flexible in size.

## Embed a YouTube video in your Weebly

8. Grab the *Custom HTML* icon and drag it to the element.

9. Paste the code into the element. (Ctrl V or Right Click / Paste)

10. Click somewhere in the workspace and your video will show up.
